The screenshot shows the Bingx website's KYC verification interface. The left sidebar contains navigation links: Account & security, Identity Verification (highlighted), Invite to Earn, My Vouchers, My Events, My Trades, Apply to Be a Trader, API Management, Sub Accounts, and Preferences. The main content area is titled 'Advanced Verification' and lists benefits: a higher withdrawal limit of up to \$ million USD within 24 hours, enhanced account safety with heightened security measures, and support for P2P trading for easier fiat-to-crypto transactions. A modal window titled 'Let's get you verified' is displayed, containing instructions to prepare an identity document and agree to data processing. It asks 'What's your country of residence?' with two radio button options: 'Non-US resident' and 'US resident'. A blue arrow points to the 'Non-US resident' option. Below the options is a 'CONTINUE' button with a right arrow, also indicated by a blue arrow.

Below this, instructions state: "Take a photo of your driver's license. The photo should be:" followed by two bullet points: "• bright and clear," and "• all corners of the document should be visible." Three small icons illustrate these requirements: a correct photo with a green checkmark, and two incorrect photos with red X marks. Below the instructions is a large white box with a cloud upload icon and the text "Upload the front of your document *". At the bottom of the form, there are two buttons: a light blue button labeled "Continue on phone" with a smartphone icon, and an orange button labeled "NEXT >". Two large blue arrows point to these buttons from the right side of the screen.

Attention!

If you delete the KYC information of an existing account, you will not be able to use that KYC information for future transactions on the exchange.

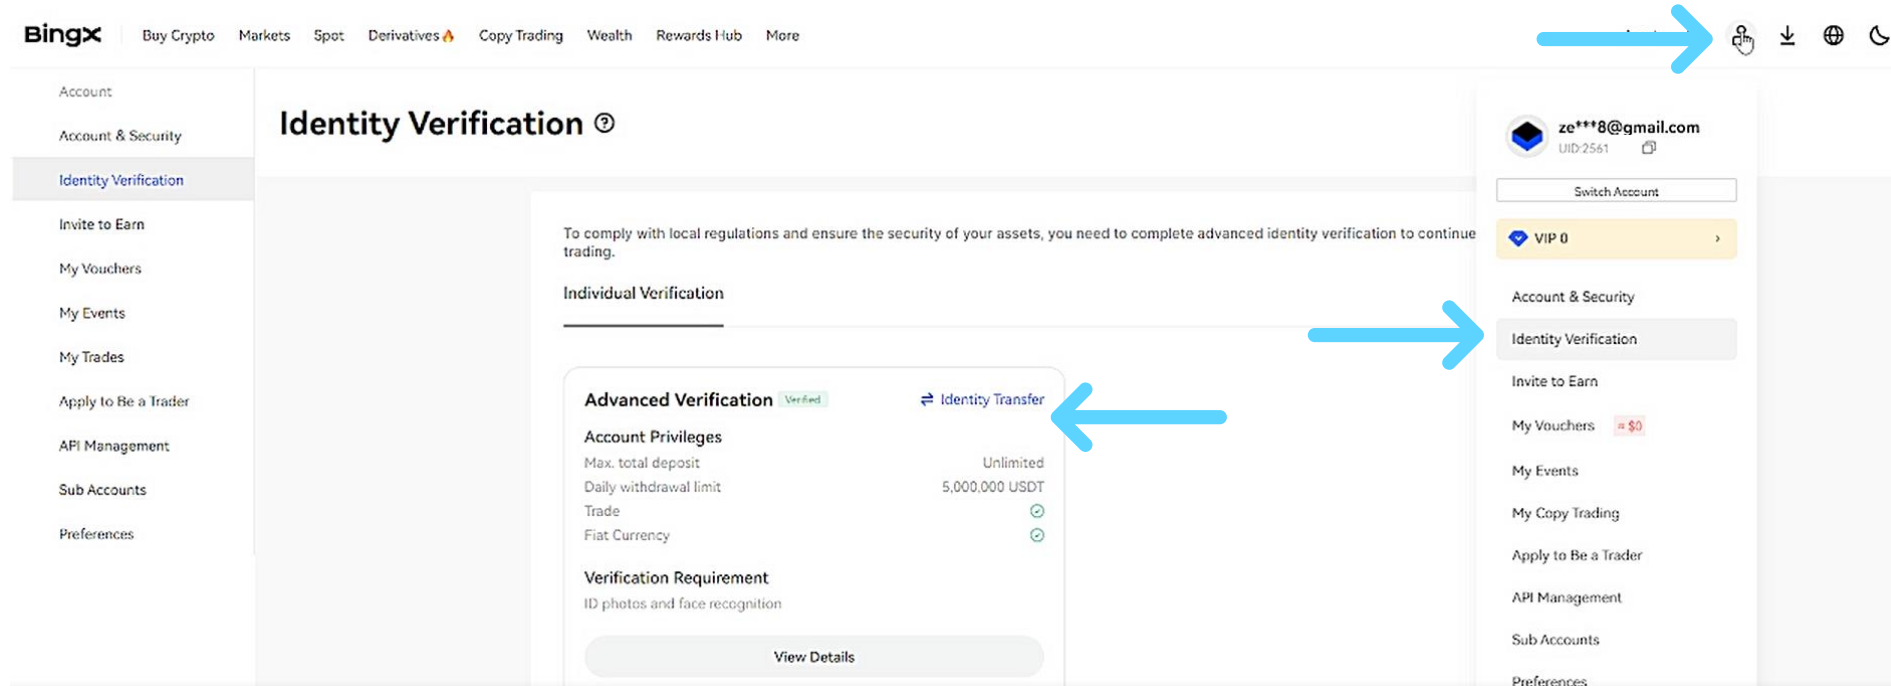

If you already have an account, please create a new account and transfer the KYC information there.

Please take note of the following before transferring your identity:

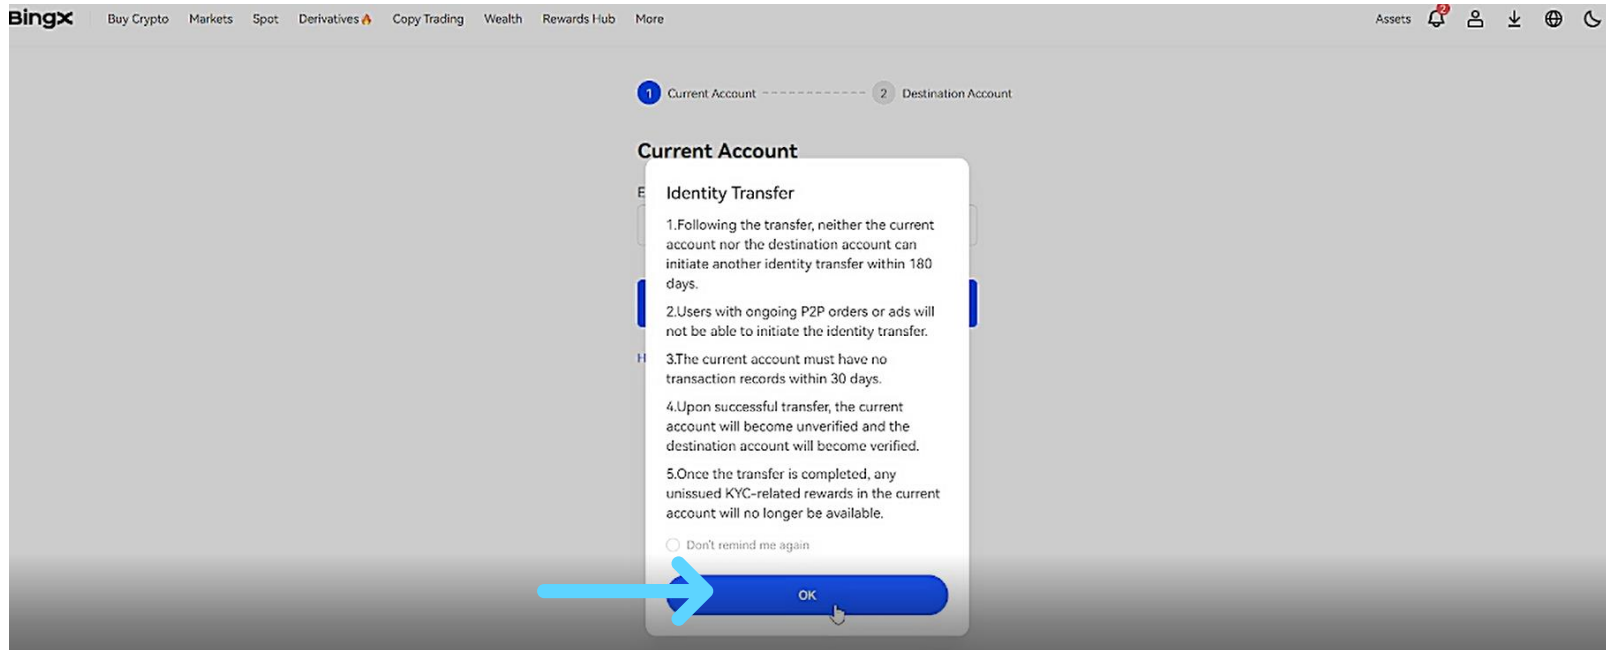

1. Only accounts with Advanced KYC verification can transfer identity. Accounts with Basic KYC verification currently cannot access this service.
2. After the transfer, both the current account and the destination account cannot transfer identity again within 180 days.
3. The account receiving the verified identity must be in unverified status.
4. Identity cannot be transferred if there are any ongoing P2P orders or active P2P ads under the account. Please wait until the order or ad is closed to proceed with the identity transfer.
5. The current account must have no transaction records within 7 days.
6. Identity transfer is not supported for accounts in an abnormal state.
7. Upon successful transfer, the current account will become unverified and the destination account will become verified.
8. After the transfer is completed, any KYC-related rewards not issued to the current account will no longer be available.
